# REAL PERFORMANCE!

The Parkpre Performance Series mountain bikes now have the NORBA Racing seal of approval.

These bikes have been and are continually being developed at NORBA sanctioned events, including the National Championship Series, the Colorado Series, the Parkpre California Mountain Challenge (California Series) and World Cup events.

It is our commitment to racing that has brought the Parkpre brand to the top in such a short time.

FRAME SIZE	15"	17"	19"	21"
SA (Center To Center)	13"	15"	17"	19"
ST (Center To Top)	10"	18"	20"	22"
TT (Parallel)	22.6"	22.6"	23"	23.4"
TT (Actual Tube)	21.5"	21.7"	22.2"	22.9"
FC (Front Center)	24.2"	24.2"	24.6"	25"
RC (Rear Center)	16.9"	16.9"	16.9"	16.9"
WB (Wheel Base)	41"	41"	41.4"	41.9"
OF (Over Seat)	1.97"	1.97"	1.97"	1.97"
Bottom Bracket Height	11.84"	11.84"	11.84"	11.84"
HA (Head Tube Angle)	72"	72"	72"	72"
SA (Seat Tube Angle)	72"	72"	72"	72"
HT 1-1/8" (Thread Tube Length)	3.3"	3.3"	4.8"	5.3"
Fork Steerer Tube	4.88"	4.88"	5.88"	6.63"
Stand Over Height	27.01"	27.01"	27.01"	27.01"
Stand Over Height	28.91"	27.38"	29.45"	30.4"

This chart is for the Pro/Elite Titanium, Pro 825, Team 925, Schepte Comp and the Comp Limited. The above geometry is based on a conventional fork, head tube angle and seat tube angle will change slightly with a suspension fork. The Stand Over Height is the only length measured with a suspension fork.

All Parkpre Performance Series Mountain Bikes are designed for front suspension.

The entire line of Parkpre bicycles is Designed In The USA at the Moorpark, California facility. For more information call our toll free number, 1-800-PARKPRE.

# NEVER BETTER.

Pro/Elite screams "full race."

**Fork Options:**  
Manitou 3, Tange ProStruts, Rock Shox Quadra 21 or Rock Shox Mag 21 (Shown)

## QUICK SPEC

SHIMANO XT RapidFire Plus • PULSTAR Hubs  
CRITICAL RACING BRAKES • ARAYA RM 395  
TEAM XC RIMS • ONZA OZ BARENDIS • PFR 140  
ALLOY BAR • PFR SADDLE • ONZA CURPES PEDALS

The use of oversize tubing and low profile geometry make the Pro/Elite one of the stiffest and most responsive titanium bikes built. But don't take our word for it, ask the test pilots at Mountain Biking Magazine or better yet stop by a Parkpre Technical/Race Support Vehicle and take one for a spin.

TITANIUM SATIN FINISH

MOUNTAIN PERFORMANCE SERIES

# NEW FOR '94!

What a steel! The Pro 825 features a low profile performance geometry made with a Tange double butted Superlight tube set, a butted bottom bracket shell, butted head tube, double butted seat and chain stays. The 24 speed Shimano XT drive train turns the Pulstar hubs. The only thing able to slow the Pro 825 down are it's Critical Racing Brakes! If you

think you can't buy a full race bike off the shelf, you're dead wrong!

## QUICK SPEC

SHIMANO XT RapidFire Plus • PULSTAR Hubs  
CRITICAL RACING BRAKES • ARAYA RM 395  
TEAM XC RIMS ONZA OZ BARENDIS • PFR 140

RockShox Quadra 21 or Tange  
Pro Struts (shown).

## TH PLATED FINISH

PRO 825

# AMERICA'S MOST WANTED.

The Team 925 is the bike that launched the Parkpre race tradition. For 1994 the Team 925 goes "Mega Butted" with a Tange Ultimate Ultralight tube set, butted seat and chain stays, butted bottom bracket shell and head tube. Yeah, it's lighter than ever! Keeping in the full race tradition, the 925 is tricked out with Pulstar hubs, Shimano LX components, Struts 120 suspension forks with 1.9 inches of travel and the cool Ti Plated Finish Parkpre brought to the mountain bike scene in '93.

## QUICK SPEC

SHIMANO LX RAPIDFIRE Plus • PULSTAR Hubs  
TANGE STRUTS 120 • ARAYA RM 400 RIMS  
ONZA 140 RAW BARENDIS • PFR 140 ALLOY

STRUTS S FORKS • ARAYA TM 18 DOUBLE WALL  
RIMS • ONZA CRMO BARENDIS • PFR 150 ALLOY  
BAR • PFR PERFORMANCE SADDLE

You don't have to be a rocket scientist to know the precious value of aluminum. The Al•U•Max combines the ride quality of butted aluminum with the proven low profile geometry of the Parkpre race bikes. The out come, well let's just say it lives up to our every expectation. The componentry is just as impressive, the Al•U•Max has a Shimano STX drive train with the GripShift 400i shifting system and Pulstar hubs surrounded by Araya TM 18 double wall alloy rims. The Al•U•Max is a sure winner!

HIGH POLISH FINISH

AL•U•MAX ALUMINUM

# #1 SUSPENSION BIKE.

Last year Bicycle Guide Magazine rated the Scepter Comp as the number one suspension bike in a shoot out with 19 comparably priced bikes. This year the Scepter Comp is back and better than ever! The Scepter drops unwanted

pounds by using a Tange MTB double butted tube set, butted head tube, a butted bottom bracket shell, butted seat and chain stays. Great news for you, bad news for the competition!

## QUICK SPEC

The Comp Limited shares the World Championship proven geometry of the Pro/Elite Titanium race bike. From it's inception we had performance on our mind in designing the Comp Limited. If you are looking for a bike to put around on, don't even think about this one. The quick aggressive handling make the Comp Limited a blast to take out on a section of single track or a real scream on a rough down hill. We suggest you take one for a test flight!

# HIT THE ROAD JACK!

The Team 925R takes to the streets like a fish takes to water! Born from a road racing geometry and mountain bike style big welded construction, the 925R is set apart from the rest of the road world. The Tange Ultimate Ultralight frame tubing gives the 925R it's lively and responsive feel while the Ti Plated Finish makes it shine. The 925R is no ordinary road bike, it's a Parkpre!

Have you ever had so much fun that you just flat out lost track of time, or ended up who knows where? If you haven't, you probably haven't really discovered mountain biking. The Parkpre Solitude is the perfect bike to get lost on! The Solitude's RST suspension fork sucks up the bumps while you take in the view. The only thing you might want to bring on your next ride is a loaf of bread so, you can find your way home.

The Grand Sport features a new low profile frame geometry modeled after the performance series line for a lower stand over height and improved responsive handling. The GripShift system makes shifting quick and easy. If you're looking for great handling in a tough looking sport series mountain bike, look no further!

GRAND SPORT

# A RACE READY 20 INCHER!

You might think Parkpre has just burst on to the BMX scene. Well, the name did in '93 but, over the past 18 years Parkpre's fearless leader has designed some of the industry's hottest BMX bicycles. With a strong reputation in mountain biking we now have the opportunity to get back to having some berm slamming, triple jumpin', gate dropping fun!

# HEAD FIRST INTO THE BMX JUNGLE.

The Parkpre Team FX Comp 20 has the instincts of a true race machine. Sharing geometry traits with the Pro Series FX bikes enables the Team FX Comp 20 to jump out of the street scene and into the hardcore BMX jungle. The Team FX Comp 20 features a chromoly fork and main frame, ACS brake and Pit Bull lever, alloy rims and a billet machined aluminum stem. We take BMX very serious!

Finally a little guy or gal bike with real mountain bike style. Parkpre gives the Comp 20 the same low profile frame design as the high performance mountain bikes.

The girls model even comes with our SwayBak top tube design.

The Shimano 6 speed drive train with the GripShift system make's riding and maintaining the Comp 20 hassle free. Available in Metro Blue and Passion Pink.

METRO BLUE

# BREEDING IN PERFORMANCE.

This is one serious cross bike! The X•Camp SE is our answer to performance on road riding. The chromoly main frame is supported by a RST 700C suspension fork, yeeh you heard right, a suspension fork! Pot holes, curbs and poor street conditions are no longer anything to worry about. Shimano components with the GripShift 300i shifting system bring the X•Camp up to speed and make shifting a breeze. The mountain bike style construction and cool titanium look are part of the mountain racing image Parkpre is bringing to the streets.

## QUICK SPEC

SHIMANO ALVIO DRIVE TRAIN • GRIPSHIFT 300i

T1 PLATED FINISH

# TAKING IT EASY!

Easy is the key word. The GripShift system combined with the Shimano Alvio drive train makes every shift smooth and yes "easy". Just give the shifter a turn and your gone. The Leisure Sport shares the same low profile frame design as the entire line of performance series bicycles, which allows the rider a lower overall stand over height.

## QUICK SPEC

SHIMANO 6 SPEED ALVIO • GRIPSHIFT 100i  
GP SPORT ALLOY RIMS • QUICK RELEASE SKEWERS  
SNAKE BELLY TIRES • PERFORATED SADDLE

So if you're going to spend a majority of your time riding the streets and want the performance of a road bike and the durability of a mountain bike, the Parkpre Leisure Sport is your bike.
